

## PRD High-X Roof Mounted Pressure Relief Vent

## Dimensions

Vent Size	PRD200F	300F	400F	500F	600F	700F	800F	900F	1000F	PRD200/500F
A (L)	245	345	445	545	645	745	845	945	1045	545
B (W)	215	315	415	515	615	715	815	915	1015	215
C	115	115	115	115	115	115	115	115	115	115

### THE ALL NEW PATENTED HIGH-X PRD PRESSURE VENTS

The High-X Range of Pressure Relief Vents is a new patented development in the world of pressure relief vent for gaseous extinguishing system that provides a greater efficiency factor of free vent area at all pressures. This means that you need less PRD vents, Smaller holes, less builders work, smaller vents and a greater size range.

The Patented High-X PRDs are as efficient in the horizontal position as they are in the vertical. This means that for the first time you can have the flexibility to use the High-X PRDs to vent into ceiling voids or from floor voids to room voids. This does not affect the fire rating of the PRDs.

The High-X PRDs Can be supplied with frames so that they can be fitted into ceiling grids or can come with a frame for floor grids so that they can be fitted into existing false floor grids and can become part of the floor with grills that you can walk over.
